On 18 February 2019 European financial services organisations launched the Financial Data Exchange Templates (FinDatEx) platform to support the development and use of standardised templates to exchange data between European financial sector institutions. For more information, please see EFAMA's press statement [here](#).

As FinDatEx will be responsible going forward for the development and coordination of technical standardisation templates, please visit FinDatEx's website ([here](#)) to receive the latest information about its work and download the most recent templates, including:

- Solvency II Tripartite Template (TPT)
- European PRIIPs and Comfort European PRIIPs Template (EPT and CEPT)
- European MiFID Template (EMT)
